

FOR OFFICIAL USE ONLY

DCI SECURITY COMMITTEE
FACILITY PROTECTION SUBCOMMITTEE

10 May 1985

MEMORANDUM

From: Chairman, Facility Protection Subcommittee
To: Chairman, Research and Development Subcommittee
Subj: CHANGE IN SCREEN SIZE FOR DESTRUCT DEVICES

1. I had been informed of the R&D Subcommittee's deliberations of screen size in destruct devices at the R&D Subcommittee's 21 March 1985 meeting. As a matter of interest to the SECOM Facility Protection Subcommittee (FPS), this issue was raised at the FPS 22 May 1985 meeting.
2. The Facility Protection Subcommittee, with due consideration of the points raised by the Army Member of the R&D Subcommittee, is unanimous in its opinion that current screen size specifications for SCI destruction are adequate. We would not, therefore, concur with any proposed changes to these specifications for the destruction of SCI paper materials.
